## BIG-1000

ONE-POST FILTERING UNIT FOR DRY DUSTS

## APPLICATION

- cleaning the air from dust- and optionally gaseous pollutants
- irreplaceable in controlling the fine dust emissions, during the welding processes

## FEATURES

- high-efficiency cartridge filter of 99,9\% filtration efficiency
- pneumatic filter regeneration system
- pressure control - monitoring the pollution degree state of the filter
- spark catcher
- hour-meter - indicating the work time

## ADVANTAGES

- high-efficiency filtration
- easy replaceable device (re-installing)
- large dust container (30 litres)
- automatic filter cleaning system - with impulses of compressed air
- possibility of use the carbon impregnatd non-woven filter -for gas filtration
- total air recirculation

TECHNICAL DATA

| Type | Part No. | Version | Maximum volume flow $\left[\mathrm{m}^{3} / \mathrm{h}\right]^{1}$ | Maximum vacuum [Pa] | Supply voltage [V] | Motor power [kW] | Acoustic pressure level [dB(A)] from distance: |  | Consumption of compressed air [ $\mathrm{Nm}^{3} / \mathrm{h}$ ] | Weight [kg] | Quantity of connections for ERGO LUX $\mathrm{arms}^{2}$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## ADDITIONAL EQUIPMENT

ACTIVATED CARBON IMPREGNATED NON-WOVEN FILTER

|  | Type | Part No. | Weight [kg] | Remarks |
| :---: | :---: | :---: | :---: | :---: |
|  | FCR-BIG-1000 | $838 F 73$ | 0,6 | Complete filter: carbon non-woven, along with a protective net. <br> All parts are placed in a cartridge filter. |
|  | WFCR-BIG-1000 | 838W95 | 0,3 | Carbon non-woven is a replacable element of the filter. |

[^0]:    1. Volume flow has been specified at the clean filter.
    2. Complete assortment of the extraction arms is represented on separate catalogue cards.
