

# ERGO-STW-R

WELDING TABLE WITH TOP EXTRACTION

## APPLICATION

- welding process operation

## FEATURES

- effective removal of dust and fumes
- contaminated air can be extracted from above and below
- compact and robust design
- built-in fan (intended for connection to an external extraction/ filtration system)
- convenient operation
- designed for indoor use
- suitable for working with small components
- equipped with a tool cabinet and a rotary table

## ADVANTAGES

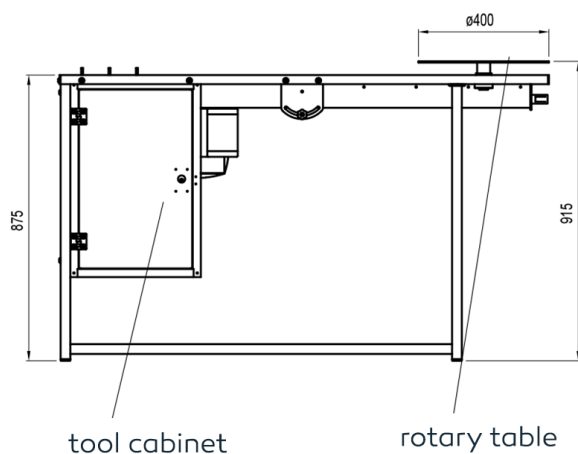

- clean and safe working environment
- space-saving in the workshop
- reliable operation
- easy to use and maintain

## TECHNICAL DATA

Type	Maximum volume flow [m³/h]	Supply voltage [V]	Motor rate [kW]	Weight [kg]	Acoustic pressure level [dB(A)]	Outlet duct connection diameter [mm]
ERGO-STW-R	1500	3x400	0,37	164	62	160
